Re claim 10, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claims: forming a second wiring over the insulating film, wherein the first wiring is in contact with the second wiring via the plurality of contact holes, and wherein the first wiring extends in parallel with the second wiring.

Re claim 15, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claims: forming a second wiring over the second insulating film, wherein the first wiring is in contact with the second wiring via the plurality of contact holes, and wherein the first wiring extends in parallel with the second wiring.

Re claim 20, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claims: forming a second wiring in the driving circuit over the insulating film, wherein the first wiring is in contact with the second wiring via the plurality of contact holes, wherein the first wiring extends in parallel with the second wiring, and wherein the second wiring intersects with the third wiring.

Re claim 25, none of the prior art of record discloses the following limitations in combination with the rest of the limitations in the claims: forming a second wiring in the driving circuit on a same layer as a source electrode and a drain electrode over the insulating film, wherein the first wiring is in contact with the second wiring via the plurality of contact holes, wherein the first wiring extends in parallel with the second wiring, and wherein the second wiring intersects with the third wiring.
